

JOIN THE GROWING LEARNING NETWORK IN RAPID PRECISION MEDICINE!

Rapid Precision Medicine (RPM®) Grand Rounds is a new monthly genomic medicine education series presented by the Rady Children's Institute for Genomic Medicine. This is a unique opportunity for healthcare providers, genetics and genomics researchers, medical and graduate students and others in the San Diego community to share, discuss and learn about the latest clinically-relevant genomic research and patient practice.

Each session takes the audience through the end-to-end implementation process from patient care to clinical laboratory, data analysis, data return, ethical consideration and concludes with a deep dive into the science of precision medicine.

Oct. 24, 2018 – 4:30 to 6 p.m. – The Alexandria at Torrey Pines – Chronicle Room

Key Speaker: **David Dimmock, MD**
Senior Medical Director, Rady Children's Institute for Genomic Medicine

Key Speaker: To Be Announced

Jan. 23, 2019 – 4:30 to 6 p.m. – The Alexandria at Torrey Pines – Chronicle Room

Key Speaker: To Be Announced

Hot and cold appetizers along with wine and beer will be served

The Rapid Precision Medicine—RPM® Grand Rounds will occur every fourth Wednesday of the month except December (holiday week) and April (yearly RCIGM conference). RPM® Grand Rounds will rotate between Rady Children's Hospital (7960 Birmingham Drive, San Diego, CA 92123) and The Alexandria at Torrey Pines (10996 Torreyana Road, San Diego, CA 92121). Free parking available at both sites and there is no cost to attend. If you have any questions, please contact: Karen A. Garman, Education and Engagement, Rady Children's Institute for Genomic Medicine at kgarman@rchsd.org or 858-966-8330.
