

JOIN THE GROWING LEARNING NETWORK IN RAPID PRECISION MEDICINE!

Date & Time: January 23, 2019 4:30 to 6:00pm

Topic: New Diagnostic Reasoning in the Era of Clinical Genomic Testing

Key Speaker: Austin Larson, MD
Assistant Professor of Pediatrics – Clinical Genetics & Metabolism
Children's Hospital Colorado/University of Colorado School of Medicine

LOCATION: Rady Children's Hospital Education Office Building (EOB)
7960 Birmingham Drive, San Diego, CA 92123

FREE parking is in the lot next to the EOB. Buzz the gate and say you are attending Grand Rounds.

4:30 to 5:00pm – Networking with Hot/Cold Hors d'oeuvres and Desserts
5:00 to 5:45pm – Presentation by Dr. Larson
5:45 to 6:00pm – Community Discussion

SAVE THE DATE FOR FEBRUARY RPM GRAND ROUNDS:

February 27, 2019 4:30 to 6:00pm
The Alexandria at Torrey Pines – Chronicle Room

Speaker: Dr. Joseph Gleeson, Clinical Investigator, RCIGM

For questions, contact Dr. Karen Garman – kgarman@rchsd.org or 858 / 966-8330

Rapid Precision Medicine (RPM®) Grand Rounds is a monthly genomic medicine education series presented by the Rady Children's Institute for Genomic Medicine in collaboration with Illumina, Inc. and the San Diego genomics community.

This is a unique opportunity for healthcare providers, genetics and genomics researchers, genetic counselors, medical and graduate students and anyone interested in the practice of precision medicine in the San Diego to come together to share, discuss and learn about the latest clinically-relevant genomic research and patient practice.

Each session takes the audience through the end-to-end implementation process from patient care to clinical laboratory, data analysis, data return, ethical consideration and concludes with a deep dive into the science of precision medicine.
